Community Review July 2010

SBA continued our commitment to raise or donate an amount equal to 1% of overall turnover to charities through the 2009 - 2010 financial year with the total contributed since 2003 now approaching \$300,000.

Relay For Life

Relay continued in 2009 - 2010, this being the 6th year in which SBA has participated. As in 2009, the SBA supported team "Mission Possible" (formerly known as "Cotton On to Cancer") was again named the number one fundraiser in the Community section with total raisings for the team this year being in excess of \$38,000. This is also the 5th consecutive year we have placed in the top 3 fundraising spots.

World Vision Sponsorships

SBA continued our ongoing sponsorship of 5 World Vision children in various African jurisdictions throughout the 2009 - 2010 year. We have been doing this for a considerable time now - so much so that one of the children we originally sponsored has now reached the age at which she can no longer participate in the World Vision program so we have adopted another in her place.....

Tabitha Foundation

SBA continued our support for the Tabitha Foundation, which works to reduce poverty in Cambodia through the sponsorship of housing and related Projects.

This year our contribution went towards construction of a community school built in honour of a long time Tabitha supporter who unfortunately passed away last year.

Other Fundraising

Fundraising and donations this year included a contribution to relief following the Haitian Earthquake as well support for a variety of ongoing causes including Red Kite and Fairbridge House.

A very exciting additional development was the creation of The SBA Foundation which is described in a separate web posting
