

SBA Supported Team Named Top 2010 Relay for Life Fund Raiser

The annual Perth "Relay for Life" event was held on the weekend of May 1st and 2nd, and again this year the SBA supported team, "Mission Possible" was named top Fund Raiser, with a 2010 donation in excess of \$38,000.

The 2010 result was all the more amazing in that it represented no less than 8% of the total funds generated by the event for the year so far, and placed the team at the head of not only the Community section, but atop the full list of all teams including Corporate entries.

The result also brings the aggregate total raised by "Mission Possible" and its predecessors (names changed to protect the guilty) "Cotton on to Cancer" and before that the "Men 'O Paws", to more than \$150,000 in the last 7 Years.

SBA wants to thank all of the supporters and contributors to "Mission Possible", including in particular our great client Mark Borosh, who has been the prime mover behind the team(s) since inception, and our very own Andrew Godden, who keeps saying he will give it all up one day but somehow never does.....

Well done to everyone involved!!!!!!!
