

SBA Wins W.A. Business News “Rising Star” Award for 2008

In May 2008 SBA won a W.A. Business News ‘Rising Star’ award at its first nomination.

The awards are designed to identify and reward the rapid achieving private companies in Western Australia. To be considered an enterprise must have a turnover above a certain limit and generally show growth of at least 25% per annum over a minimum 3 Year period in one or more of a number of categories – Revenue, Profit, Staff Numbers etc. The nominations are then assessed on these as well as a number of qualitative factors.

In 2008 over 90 Western Australian Companies managed to attain the criteria for nomination, with a total of 10 winners representing the fastest growing private enterprises in the State being chosen.

SBA is extremely proud to have been selected as one of these and we acknowledge the support of firstly our clients, as well as insurers, suppliers, staff and others who in the end are the ones that made it possible.
