

SBA Wins Second Consecutive W.A. Business News “Rising Star” Award

In May 2009 SBA won its second W.A. Business News Rising Star Award, becoming the first ever enterprise to win for two consecutive years running.

The awards are restricted to privately owned companies and are designed to identify those that are achieving outstandingly rapid growth and success. Nominations are firstly qualified on financial achievement and then judged on a number of additional qualitative factors including such areas as strategy, staff retention, innovation and community involvement.

In 2009 SBA went even better than our previous nomination, placing outright first amongst all entrants.

We are again proud to have been chosen as one of W.A.’s best private companies, particularly in current economic times which make growth in all areas of business (including ours) significantly more difficult. SBA again acknowledges the support of our clients, insurers, suppliers, and staff for making it possible.

Selected press articles are posted on our website and further information is also available on www.rising-stars.com.au
